

Cobb CERT Analysis and Evaluation Working Group

Mission Statement

To provide measurement and assessment of all activities and events of the Cobb County CERT program.

Goals and Objectives

The scope of these functions is across the entire program using basic performance information collection techniques and where appropriate, using standard and recognized statistical analysis tools. The reporting of CERT volunteer performance results will include the rationale for the data collection, the collection methods employed, and an explanation of the findings with recommendations.

1. Assess and evaluate all CERT training programs and activities, working group efforts and results relative to their mission, goals and objectives, and CERT district efforts and results relative to their mission, goals and objectives.
2. Provide respected professional assessments, evaluations and recommendations to CEMA regarding their direction and responsibilities in leading and managing all training programs, working groups, and CERT districts.

Chairman of Working Group—Lori Hudson

Lori is the chairman of the Cobb County CERT Analysis and Evaluation working group. She and her husband, Joe, have two sons. Lori and Joe enjoy spending time with their sons and friends, traveling, reading, cooking and hiking.

Lori has over 25 years of experience working for a variety of business units across General Electric. Lori's formal education includes bachelors and masters degrees in Industrial Technology from Western Carolina University in Cullowhee, North Carolina.
